Markets.

My business being strictly and exclusively confined to the Manufacture and sale of Clothing, enables me to offer greater inducements than any other house in the city, and should alone be sufficient guarantee to all who purchase Ready Made Clothing, that they can supply themselves with a much larger variety of styles and assortment of sizes at a less price, by making their purchases direct from sizes, at a less price, by making their purchases direct from the Manufacturer. sept5-tf R H. BROCKWAY. FIRST PREMIUM SEWING MACHINES,

Nashville Sewing Machine Company Nos. 71 1-2 EAST SIDE OF THE PUBLIC SQUARE,

NASHVILLE, TENNESSEE. THESE Machines are now very justly considered to be the best in use, having the advantage of all others in the simplicity of their construction, the speed and beauty of their work, and the great strength of their seam. Unlike any thers in use, they form a seam with two continuous threads from ordinary species of cotton, silk or linen—making a knot I every stitch which prevents the work from ripping under by circumstances whatever.

The first and highest premiums have been awarded to these Machines at all the leading Pairs throughout this country and Europe and the inventor now rejoices in the more substantial reward of the largest patronage ever bestowed upon any Sewing Machine in Europe or America. They are of the highest finish, and of every variety of size and style, and adapted to all the wants of the Sewing comand style, and adapted to all the wants of the Sewing community.

They are all secured exclusively to the proprietors by letters patons, and are free from all legal controversy. Great pains has Leen taken to adapt these Machibes to Plantation sewing, and they are now so simple, durable and easily run and tended by any person, that they are entirely beyond compelition for this work or for the manufacture of heavy or light bags, for Corn or Wheat, no machinery has ever been invented to surpass them—any person after one bours practice can make from 490 to 700 corn sacks per day en one machine. These machines are also equally well adapted to the manufacture of all kinds of clothing, coarse or fine, as well as general sewing, quitting, stitching, &c. These machines are so arranged as to make the stitch any length desired, and to sew with case any and every seam in any garment, and the durability, regularity and beauty of finish, cannot be equaled by any work accomplished by the most skillful hands. skillful anids.
We shall at all times keep on hand a ull assortment of these machines, and most respectfully invite the public generally to call and see them in use, and give them a careful examination and be satisfied that the half has not yet been

HAVING become Proprietors of the Patent for this State of Schooley's CELEBRATED SELF VEN. TILATING, MEAT, PROVISION, AND FRUIT PRE-SERVER, now offer them to the Nashville public.

This article is bound to supercede everything of the kind in use, its great sdrantages being too strongly apparent to be doubted. By means of the ventilation, the preserving be doubted. By means of the veutilation, the preserving chamber is warranted to be always dry and entirely free from mould, mast or impure flavor, with a current of cold dry air passing through it continually—all accomplished with the usual quantity of ice.

Every house keeper should give this article a trial, and no one will consent to be without it.

THE undersigned have purchased the Patent right of C.
H. WILLIAMS'
DOUBLE ACTING BALL VALVE Force and Lift Pump, For the States of Tennesse, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi and Louisiana. We have tested the Pump in all its recommended uses for ordinary purposes—in wells, and as fire engines; and hesi-tate not to say that it is superior to any pump now in use. It is simple and plain in us construction, can be taken to pieces or put together by any ordinary man, black or white, in half a minute. There is not a screw or bolt about

the pump; there is the least imaginable friction—hence its durability. It is almost impossible for it to get out of fix When used for a wall or cistern it can be converted into when used for away or clusters it can be converted into a Fire Engine in one minute, and by one man water can be thrown over the tallest houses in the country. It is invalu able as a Fire Engine, and especially in the country and country towns.

It is equally well adopted to all machinery, Railroad

Tanks, &c., and will, when known, supersede all other
pumps. It can be used for either hot or cold water.

Having fully satusfied ourselves as to the capacity, value and utility of the pump, we are ready to make sales of the I S manfacturing a superior quality of BUGGIES, which be guranties to be No. 1 in every particular, and has District of this State, which has been sold.)
